VOL. XXXIII. No. 264

DIDSURY, ALBERTA, THURSDAY, JUNE 18, 1936

\$2.00 per year. 5 cents a copy.

## WEDDINGS

DEADRICK-LAWSON

A quiet wedding was solemnized in the Pastor's study of the First Methodist Church, Oakland, Cal., on Thursday, June 4, when Miss Mildred Lawson became the bride of Robert C. Deadrick, youngest son of Charles Deadrick, of Didsbury.

The bride was becomingly attired in a grey travelling suit with accessories to match. Her parents, of Fresno, Cal., and a few close friends witnessed the ceremony. The groom was supported by his brother, Lyman Deadrick.

Mr. and Mrs. Deadrick will reside in Oakland.

## Obituary.

WILBERT MACK.

Wilbert Mack, 14-year-old son of Mr. Albert Mack, of Calgary, died at the family residence, 735, 7th Ave. N.E. on June 9 following a lengthy illness. He was born in Didsbury and later moved to Calgary. Surviving are his parents, a brother and two sisters.

Funeral services were conducted by Rev. Matthews at the Church of the Nazarene on June 11 and interment was made at the Burnsland Cemetery under direction of the Jacques Funeral Home.

## Pianoforte Recital

The pupils of Miss Victoria Thompson will give a recital and demonstration of rhythmic exercises in Knox United Church on Friday June 26 at 8:15 p.m. Admission: Adults 25c and Children 15c. The proceeds will be donated to the Junior Red Cross.

## Evangelical Church Notes

Rev. C. Heinmiller, of Cleveland, Field Secretary of the Missionary Society, will bring a message of special interest to young people at the service this (Thursday) evening.

Rev. Carl Heinmiller will speak on Friday evening and on Sunday afternoon at a missionary mass meeting.

Saturday evening Rev. S. J. Umbreit, D.D. will speak on "Japan." This service is under the auspices of the Women's Missionary Society. A pageant, "Youth's Consecration," will also be given.

Sunday morning there will be a German service at 9 o'clock. Rev. Carl Heinmiller will be the preacher. Sunday School will be held at 10 o'clock. At 11 o'clock Bishop Praetorius will preach the ordination sermon. The missionary mass meeting will be held at 3 o'clock in the afternoon, and at 7:30 in the evening Bishop Praetorius will bring the closing message of the conference.

The business sessions will be held each day at 9 a.m. and 2 p.m. and are open to the public.

## School Concert Postponed

The concert which was to have been put on by the six rural schools at the Community Hall last Friday in aid of the school, was postponed on account of weather conditions, and will take place tomorrow evening (Friday).

A good program has been arranged by the schoolchildren, and admission is: adults 25c, children of school age free. Ladies please bring lunch. A dance will follow the concert for which the admission for gents is 25c.

## At the Movies.

May Robson in "Grand Old Girl" is the special attraction at the Opera House next Wednesday, June 24th.

Here is a feature that will appeal to every man, woman and child who ever went to school. "Grand Old Girl" is the clean, courageous drama of a high school principal who dares to fight fire with fire when the morals of her boys and girls are threatened by the sinister influence of the town politicos. For the first time in the history of talking pictures the American school teacher is portrayed in the sympathetic, highly human role she deserves. Here May Robson is at her best. Never was she cast for fitting a role. Never has this grand old lady given so vital and striking a portrait of a character everybody knows. Not only every teacher will want to see this perfect screen story, but every parent and every boy and girl.

Another special attraction is booked for Friday and Saturday, June 26 and 27, when "The Melody Lingers On" will be screened, featuring Josephine Hutchinson and George

Ronald Colman will appear in "Captain Blood" at a date to be announced later.

## Knox United Church Notes.

The Anniversary Service of the Church was an unqualified success. The inclement weather, of course, had some adverse effect upon the attendance, especially the Monday meetings, but from the standpoint of inspiration and financial support one could not ask for better. Dr. Kerby delighted the congregation with a most inspiring message based upon the theme "Truth". He showed his old time vigor and wit; his warnings and appeal will not readily be forgotten. The special music was of high order. Mrs. Edwards sang "Open the Gates of the Temple"; the choir rendered the beautiful anthem "Seek Ye the Lord" with Mr. J. Boorman taking the tenor obligato, and mention should be made of the organ prelude and the offertory played by Mrs. Boorman.

The supper and public meeting was well attended when allowance is made for the downpour of rain just previous to the commencement of proceedings. Many of our country friends were prevented from coming in, but as it was there was a good representation from outside the town and we were glad to see Mr. and Mrs. J. R. Miller with a party from Innisfail. The ladies served a bountiful repast that would satisfy the appetite of an epicure. The program was excellent and the address of Rev. D. H. Telfer, M.A., B.D., was thoroughly enjoyed. It was a pleasure to have a brief word from Rev. S. Pike, of Innisfail. The program follows:

Piano solo - Miss Eileen Geeson
Vocal solo - Miss Gladys Geeson
Vocal solo - Miss Gwen Telfer
Vocal solo - Miss Dora Follett
Piano solo - Miss A. Keith
Word of Greeting - Rev. S. Pike
Vocal solo - Mrs. J. Boorman
Vocal solo - Miss Dora Follett
Vocal solo - Miss Gwen Telfer
Address - Rev. D. H. Telfer

Rev. J. R. Geeson acted as chairman and expressed the thanks of the thanks of the church officials to all who had contributed to the success of the Anniversary, and for the generous support which had made the attaining of the objective of \$300.00 possible.

A guest speaker from the Evangelical Conference, Rev. Carl Heinmiller, will preach at the evening service this Sunday.

The Tennis Club will hold a School Closing Dance at the Opera House on Monday, June 29. The Mandarin Orchestra, of Calgary, will supply the music.

## Scrip Plan is Operative In Alberta.

Authorizing the issue of "stamped scrip" by the provincial government to the amount of \$2,000,000, the necessary order-in-council bearing the signature and approval of Hon. Walsh, lieutenant-governor, was returned to Premier Aberhart last Friday afternoon.

With the order signed, the plan is now operative in this province. It will be two or three weeks, however, before the scrip will be in circulation, the premier said Friday.

The order authorizes the issuing of scrip in denominations of \$1.00 and \$5.00. Certificates of \$1.00 denomination call for a 1 cent stamp weekly, to be affixed by the holder during a 2-year period. In the case of the \$5.00 scrip a stamp, 5 cents, to be attached weekly for a similar period, at the end of which they are redeemable by the provincial treasurer.

## Inspects Oil Well.

Mr. Campbell M. Hunter, of London, England, president of the Hunter Valley Oil Company, was an Olds visitor Monday of last week. Mr. Hunter took a trip to the oil well now being drilled at a point 68 miles west and reports the work progressing very satisfactorily, with a promising outlook. The well is now being drilled beyond the 5,578 foot mark. Limestone has been penetrated and there will be anxious moments among the drilling crew before long.—OLDS GAZETTE

## Town Council.

Saturday Night Closing Petition  
Laid On Table.

The petition asking the council to pass a by-law closing the business houses at 10 o'clock Saturday nights was brought before the council at the meeting held Monday evening. At the same time a petition was presented signed by 19 interested persons who had reconsidered and were now opposed to early closing, asking that their names be removed from the former petition. In view of the opposition that has developed the council decided to lay the petition on the table.

Mr. Ernest Clarke and Dr. Liesemer appeared before the council on behalf of the Didsbury Band and asked for the town's assistance in purchasing uniform capes for the band. They stated that the band had sufficient funds to defray about half the cost. It was decided that the town purchase uniforms to the amount of \$100.00.

It was decided to tear down the North End Livery Barn, which had reverted to the town, and erect a barn for the scavenger's horse with the lumber salvaged.

Previous to the meeting a court of revision was held in respect to the assessment roll. Ten appeals were heard and small reductions were made in two cases. The assessment was sustained in the balance of the cases.

### Protection Of Wild Life

Not any too soon, an awakened interest in conservation of wild life and particularly game birds and animals, fur-bearing animals and fish is noted on both sides of the international boundary. This renaissance, if it can be called such, is most timely in view of the probable early extinction of many important and indeed valuable animals and birds if present wasteful methods are to be allowed to continue very much longer.

It is true that governments on both sides of the line have entered into agreements for the protection of some of the best known game birds and a good many regulations have been adopted by state and provincial governments for internal protection of a much wider range of both birds and animals of economic value to mankind, but that alone is not sufficient to ensure perpetuation of a great heritage.

True conservation cannot be attained until the great majority of the farmers in the country and sportsmen in the cities, towns and villages constitute themselves unofficial game guardians and use their utmost endeavors to protect harmless wild life both by example and precept.

Many thousands of men in the prairie provinces are already doing this, but maximum results cannot be achieved until practically everybody is imbued with the necessity of conserving one of the greatest gifts of Nature to humanity.

Both in the United States and Canada lovers of the great outdoors have become thoroughly alarmed at the decimation which has taken place in recent years in the flocks of game birds, both those that inhabit the uplands and those which migrate twice a year from the one country to the other. A similar apprehension at the rapid diminution of herds and flocks of wild game animals is being frequently voiced, and not without justification, in magazines and newspaper articles both north and south of the 49th parallel.

In the United States, where misplaced governmental activities have resulted in large scale destruction of breeding grounds and natural sanctuaries under the name of rehabilitation, sportsmen and conservationists are mooting the advisability of linking up all societies interested in the preservation of wild life in protest to the Federal government and to demand more rigid regulations and restrictions in the interest of fur, feather and hide, not alone for economic reasons but also from the viewpoint of the necessity for preserving the aesthetic features of the countryside.

It is good to note that this awakening desire to conserve the game birds and animals is being extended to include the song birds, for their importance in the balance of Nature is becoming more and more recognized. There was a time when the destruction of song birds was passed over as a matter of little or no moment, except by a few bird lovers.

This apathy towards the wilful destruction of the feathered songsters of woodland and open prairie is fortunately passing and to-day they are generally regarded as friends of man which should be protected. The majority of them it is now more widely recognized are the foes of insect pests which, if left to multiply without let or hindrance, would in a very short space of time render the world uninhabitable.

To-day not only are people generally refraining from killing song birds and are restraining youth from giving vent to a lust to kill, but are taking more active steps to protect their feathered friends from such natural foes as the crow and the magpie.

In all three provinces there are clubs in operation, formed with the destruction of the crow as the objective of the membership. While differences of opinion as to the menace of the crow have been voiced from time to time, the weight of evidence in the indictment of this bird as an adversary of the insectivorous song birds is overwhelming. One witness for the prosecution, Dr. H. G. Carson of Saskatoon found that 53 per cent. of the crow nestlings examined by him on behalf of the Fish and Game League last year had been fed eggs or young birds taken from their nests and that examination of more than 300 crows shot during the season by members of the league showed that 28 per cent. of the adult crows had eaten birds or eggs in the height of the nesting season.

In the light of this evidence the recently announced sweepstakes competition by the Saskatchewan Government aimed at the destruction of crows and magpies is regarded as a distinct forward movement in the program of preservation of songsters and game birds, and apart from the monetary reward offered for killing banded crows will doubtless be heralded with general approval by Nature lovers.

Last year 832,015 books and newspapers and 8,000 pieces of Braille music were produced by the National Institute for the Blind in Britain.

In Canada it is unlawful to advertise a "cure" for obesity. 2152

### Mining In Northern Area

#### Large Development Program For Northwest Territories This Year

As a result of the geological field program carried out by the Department of Mines last year, great activity in prospecting and mining development will be seen in the Northwest Territories during 1936. The Mining Recorders of the Department of the Interior at Cameron Bay, on Great Bear Lake, and Fort Smith, which lies just north of the Alberta-Northwest Territories boundary, report that while development work has continued on the older or main properties, preparations are being made by numerous interests for the carrying out of an extensive prospecting program this summer.

Prospecting activities will be chiefly centred in the Yellowknife area, also on the north and south shores of the east arm of Great Slave Lake including the islands. At least five major mining companies will have prospecting parties in this field and indications are that many individual parties will also prospect the area. As part of last year's geological field program 10,000 square miles were examined north of the northwest and east arms of Great Slave Lake, and the geological formation of approximately one-third of this area, which forms the southern part of the yellowknife Game Preserve, was found to be favourable prospecting ground for precious metals.

#### Prefers Life In Alberta

#### 93-Year-Old Woman Does Not Like California

Although Mrs. H. M. Olsen is 93 years old, she would rather live on her wheat farm near High River in Alberta, operated by one of her sons, than live in the fruit-growing lands of Arizona where she once resided, or with her two sons now living in California.

"Grandma" Olsen showed little patience for people living in fruitlands. "What is fruit?" she asked. "It comes and goes, it doesn't last. It is wheat that is lasting. Wheat—bread to feed the world. I have always been glad I came to Alberta. It grows wheat."

Mrs. Olsen left her native Denmark in 1858, crossed to Salt Lake City immediately after her arrival in New York, and soon after was married to Mr. Olsen. She came to Alberta in 1905.

"I walked every step of the 1,100 miles between Omaha, Nebraska, and Salt Lake City behind a covered wagon," she declared.

#### Must Be Almost Perfect

#### Record Of American Cow Something To Marvel At

Honor is being paid to an American cow which has produced 38,606 pounds of milk containing 1,402 pounds of butterfat in one year. Figures have been compiled to show that this is equal to the milk consumption of more than 200 people in one day every day of the year, enough milk and cream to make 88,880 ice cream cones, and enough butter for eight families every day, provided they are not on relief rations.

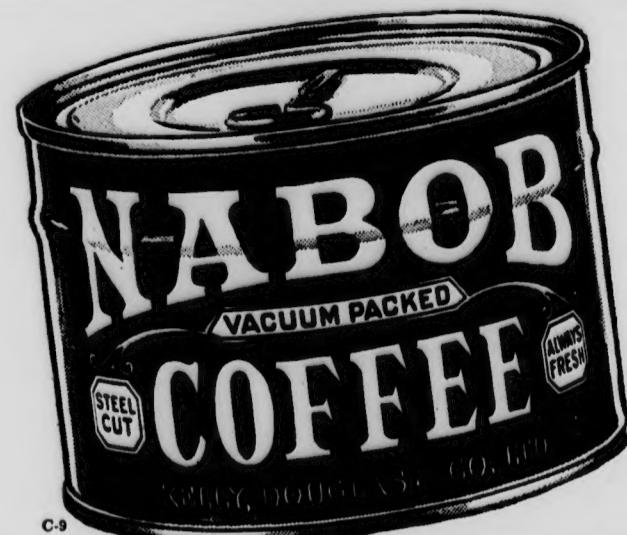

Very interesting. This record will be cited as a mark for other cows to shoot at; the sort of cows that every dairy farmer should aspire to have in his herd. Nineteen tons of milk containing more than 3.6 per cent. butterfat! We call it cow-operation!—Stratford Beacon-Herald.

#### Many Tourists Expected

#### Peak Of 1929 Looked For By Travel Bureau

Tourist travel into Canada this year would reach the peak established in 1929, D. Leo Dolan, director of the Canadian Travel Bureau, predicted at Ottawa in an address at a banquet of the northern division of the Ancient Mystic Order of Samaritans. "To date we have received practically twice as many inquiries as we had at this time last year," he said. "Most of the inquiries are from United States citizens wishing to visit our country."

Seeking new uses for French resinous products, France is trying resin as a road surfacing material.

### New Lifeboat Invented

#### Can Be Sealed And Has Device For Renewing Air Supply

Victims of future marine catastrophes will find themselves comfortably saved within a sealed, non-sinkable lifeboat, if the invention of a reputable Catalan engineer proves practical.

The new lifeboat that cannot sink is capable of seating 40 to 50 persons. It can be launched from a sinking ship under all weather conditions and in less time than that required to remove the canvas from an ordinary lifeboat.

The inventor is Cosme Salomo Vila, the engineer who originated lifesaving buoys for occupants of submarines. This invention was demonstrated in Madrid before a group of experts, including officials of the Spanish ministry of marine. It is said that naval experts consider adopting the submarine buoy as part of the general equipment of submarines.

Salomo Vila's latest invention, the non-sinkable lifeboat, is a launch 25 to 30 feet in length and capable of being closed so perfectly that neither air nor water can enter. The lifeboat is equipped with a motor and a special device for renewing the supply of fresh air.

The machinery for lowering the lifeboat after it has been occupied has been perfected by the same inventor. According to Salomo Vila and to witnesses who have seen tests made off the coast and near the town of Mataro, the lifeboat can be lowered in all kinds of weather and it is absolutely non-sinkable. These reports add that the interior of the vessel remained perfectly dry during violent storms and that the air was renewed without admitting any water.

### SELECTED RECIPES

#### CHEESE BRANS

1½ cups Quaker Natural Bran  
1 cup Quaker Flour  
¾ teaspoon baking powder  
½ teaspoon salt  
6 tablespoons grated cheese  
2 tablespoons shortening  
¼ cup boiling water  
1 egg  
Little salt for sprinkling

Method: Mix dry ingredients thoroughly. Stir in grated cheese, melt shortening in the boiling water and add. Then add well-beaten egg. Roll very thin, using bran in place of flour. Sprinkle with salt, cut with cookie cutter. Bake in slow oven (not over 300 degrees). Delicious with a cup of tea or as an accompaniment for salad.

### Commander Of East Indies

#### Vice-Admiral Sir Alexander Ramsay Receives Appointment

Vice-Admiral Sir Alexander Ramsay has been appointed commander-in-chief of the East Indies station of the royal navy.

Sir Alexander is the husband of Lady Patricia Ramsay, daughter of the Duke of Connaught and honorary colonel-in-chief of Princess Patricia's Canadian Light Infantry. While in Canada when her father was governor-general Lady Patricia was known as Princess Patricia, but on her marriage in 1919 she was authorized by royal warrant to relinquish the title of princess of Great Britain and Ireland.

### Thieves Return Stolen Goods

#### To Keep Police Of Roumanian Town From Losing Jobs

The threat of the Roumanian government to fire the whole police force of the town of Buzau, Roumania, for incapacity broke the hearts of a dangerous gang of burglars. They sent by post to the chief of police a big parcel with stolen goods, accompanied by a letter stating that "We, the thieves of Buzau, do not want the poor police to lose their jobs and shall consequently transfer our activities to other parts of the country. Our principle is 'live and let live'."

The complaint of a member of parliament, M. Moceanu, whose elegant fur coat was stolen in Buzau, caused the ministry of interior to announce that if the coat was not found within 24 hours, the whole police force, including the chief, would be dismissed. Next morning, a huge parcel containing among other things, the fur coat of the member of parliament arrived at police headquarters.

### Takes Over New Post

#### Earl Of Willingdon Appointed Warden Of Cinque Ports

The Earl of Willingdon has been appointed Warden of Cinque Ports, a position of considerable dignity, carrying comfortable emoluments and residence at Dover Castle.

Lord Willingdon returned from India after five years as viceroy and it was announced the king had conferred a Marquessate on him.

As Warden of Cinque Ports, the former governor-general of Canada succeeds the late Marquess of Reading, himself a former viceroy of India.

The Cinque Ports—originally Hastings, Romney, Hythe, Dover and Sandwich but now including other "ancient towns" of the south coast of England—are a league enjoying a number of ancient privileges.

The first farm plows were made from crooked tree branches and worked entirely by man power.

## FREE! BOOK ON BASEBALL!

Every boy and baseball fan will want this up-to-date book, "Baseball—and How to Play it", by Frank J. (Shag) Shaughnessy, Manager of the pennant winning Montreal Royals. ## Romantic History of Mining In Canada From Early Days Forms An Engaging Chapter

The discovery of great wealth hidden in the rocks of Canada has been a story of exciting thrills, a story of romance often mixed with tragedy. Dr. Charles Camstell remarked to the Canadian Club, and he indicated that the romance was far from ended. Mining on this part of the continent began with the extraction and utilization of copper ore by the Indians on the north shore of Lake Superior and along the Coppermine River near the Arctic Sea. But the first real interest in mining in what's now Canada came with the discovery of placer gold in the Fraser River and in the Caribou district before British Columbia came into Confederation.

Then came the accidental discovery at Sudbury of the greatest nickel deposits in the world when the Canadian Pacific Railway was built in 1885. Next, the rush to the Klondike in 1897 and the production of \$100,000,000 worth of gold from the streams of the Yukon in a few years, which turned the eyes of the world to Canada. But hundreds of prospectors lost their lives in the great adventure.

Another new chapter began with the accidental discovery of exceedingly rich silver deposits at Cobalt when the Temiskaming and Northern Ontario Railway was built in 1902. The valuable experience gained by prospectors, mining engineers and geologists in this district was successfully applied to exploration work all through the northern mining areas of Ontario and Quebec and led to the rapid development of gold production.

Dr. Camstell pointed out that there has been the romance of metallurgy as well as the romance of finding Nature's hidden treasures. Miracles were wrought in the successful treatment of ores by the scientific development of new metallurgical processes. This was true of the Flin Flon mine, the great Sullivan mine in British Columbia, and the rich mines of the Sudbury district.

The romantic area is far flung, reaching up to the Great Bear Lake, where the richest radium-bearing ore in the world is found, to the copper deposits at the Coppermine River and on the northwest coast of Hudson Bay, and to various northern points in the Western Provinces where gold deposits have been located.

In one of the greatest times of trouble in the history of the country—the years of the great depression—more help came from mining than from anything else. And the prospect is that, in the years to come, still greater progress will be made in unlocking the mineral wealth of Canada, the extent of which can be only guessed, though it is evidently very great. And the continuing romance will indirectly confer great benefit on the whole country and contribute to the welfare of its people.—Winnipeg Free Press.

### Urge Northern Highway

#### Suggest Road From Winnipeg Through Saskatoon To Jasper

An all-weather highway over the "ever-green route" running from Winnipeg via Riding Mountain National Park and through Saskatoon to Jasper, and speedy completion of an "all Canadian circle tour" was urged by the National Parks Highway Association when 30 delegates and members representing the prairie provinces and British Columbia passed a resolution to be forwarded to provincial governments and the federal government during the course of a general meeting at Saskatoon.

C. H. Grant, K.C., of Edmonton, was elected president to succeed A. H. F. Stalk, formerly of Dauphin, and Frank Barnhouse, of Edmonton, was made secretary in place of C. D. Bates, of Dauphin.

"Prince Rupert drops", formed by blowing molten glass into water, can be struck with a hammer without breaking, but if a tiny tip of the tail is broken off, the entire drop flies into powder.

### Vicar Has Right Idea

#### Installed Radio-Gramophone So People Could Hear Good Music

One of the oldest churches on the south coast, at West Dean, near Chichester, England, which was partially burnt down in November, 1834, has been rebuilt at a cost of about \$50,000.

The vicar, the Rev. H. E. Lyne, has installed a radio-gramophone as a permanent fixture.

"The innovation has made people appreciate good music," Mr. Lyne stated. "I am determined to let them have the best. It is very difficult for us to do justice to a nice anthem, so I am going to get some really good records to put on. The congregation will be able to hear the music of Westminster Abbey and St. Paul's cathedral, and we will be able to join in the services of other London churches."

The church dates back to Saxon times, and an old Saxon "bevel door" can still be seen. The church has been rebuilt in the old style. When the rebuilding was taking place two coffins were found in a vault under the choir. On each of these was a silver plate bearing coats-of-arms. The silver was bright, although the plates showed that the burials had taken place in 1765 and 1809.

### Western World Could Help

#### More Charitable To Feed Chinese Than Destroy Food

In a province in China there are anywhere from one million to ten million people on the verge of starvation.

In Brazil they are burning coffee because there is too much of it. In the United States cotton has been plowed under and millions of pigs have been destroyed because there is too much bacon and pork. In some other countries beef animals have been destroyed to reduce the surplus. In Canada and the United States we have had for several years a surplus of wheat causing us grave anxieties.

In China a million people, to take the lowest estimate, are dying of starvation.

There is no world management. If the world could feed China in her year of disaster no doubt China could repay the world in her years of plenty.

Surely the western world might better bestow in charity her surplus foods on starving China than destroy them by fire or the plow or cast them into the sea.—Toronto Daily Star.

### Butter Consumption In Canada

#### Amounts To Over Thirty Pounds Per Head Of Population

According to a provisional estimate, the people of Canada consumed 30.91 pounds of butter and 3.61 pounds of cheese per head of population in 1935 when 338,396,970 pounds of butter and 39,572,341 pounds of cheese were disposed of.

In 1934 the consumption of butter was 336,824,894 pounds, or a per capita consumption of 31.12 pounds. Between 1933 and 1934 there was an increase amounting to almost a pound per head, but the 1935 figure is just about three-quarters of a pound above the 1933 figure, and less than one-half pound above the 1932 estimate. In other words, the average run of consumption of butter is over 30 pounds per head of population.

The consumption of cheese in Canada in 1935 is estimated at 39,572,341 pounds, or 3.61 pounds per head of population. This is practically the same per capita figure as in 1934, but compared with 1933 shows the small increase of 0.22 pound, and an increase of 0.36 pound compared with 1932.

Deer antlers are composed internally, of the same material as that which forms the hair.

Germany is selling a large number of commercial aeroplanes in the Far East.

### Potato Disease

#### Treating Potatoes For Planting To Control Stem Canker

The potato disease commonly known as "stem canker", "rhizoctonia", "rhizoctonosis", and on the tuber as "black scurf", probably contributes more to reducing the yield than any other malady affecting this crop in Canada. The black scurf on the tubers, as is the case with common scab, makes them unsaleable. An attack on the root stems bearing the tubers reduces their size and deforms their shape, the degree depending on the earliness of attack, and on the extent of injury.

From studies of this disease by the Dominion Laboratory of Plant Pathology, Edmonton, co-operating with the University of Alberta, it has become quite clear that scurvy potatoes should be treated before they are planted. Of course there is no point in treating material which is free from scurf, but one must bear in mind that only a slight amount of scurf is just as effective in transferring the disease as a large amount is. In treating, however, one may, if not careful with the time which the tubers are immersed and with the strength of the solution, injure the germination and vitality of the plants, even as much as that caused by the disease. The experiments at the Edmonton Laboratory have shown that the corrosive sublimate method is effective in killing the sclerotia or scurf on the tuber. Four ounces of corrosive sublimate are dissolved in 25 gallons of water and, if the scurf are abundant and large, the soak period is 1½ hours, but half would be quite sufficient if only a slight amount of small scurf is present. In fact it is proper to use the shorter period where advisable.

### Strip Farming

#### Method Seems To Be Gaining In Popularity In Saskatchewan

Strip farming is gaining in popularity in Saskatchewan as shown by the fact that between 600 and 700 farmers have applied to the experimental farm at Indian Head for forage and cover crop and under the rehabilitation schemes of the federal government.

The seed is free, but first farmers of a district must band themselves into agricultural improvement associations and individually pledge themselves that strip farming methods will be used, that proper cover crop practice will be used and that recommended tillage methods will be followed.

### Search For Oil

In the Pekisko hills, close to the ranch of King Edward VIII, near High River, Alta., work soon will be resumed in the search for oil. A well has been started but drilling was suspended about a year ago after it had been drilled to 3,480 feet. A gas flow of 4,000,000 feet daily was obtained.

### First Crochet--Then Weave Away!

PATTERN 5598

Here's a new and easy way to have effective chair back sets, scarfs, luncheon and buffet sets and doilies. Crochet a filet mesh—just plain—then weave in the design darning it in and out in varied colors. So easy a child can do it and will you be pleased with the result! If you wish you can do the whole design in regular filet crochet for complete charts are given. On the other hand, you can buy regular filet net and weave the design in. Colored string or wool is used for the weaving.

In pattern 5598 you will find directions and charts for making the articles shown; material requirements; illustrations of all stitches needed and for doing weaving.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

*There is no Alice Brooks pattern book published.*

## Municipal Unit System

### Found To Improve Health Conditions In Rural Areas

#### A Rest Is Needed

#### Nations As Well As Individuals Irritable From Lack Of Sleep

Inquiring psychologists at the University of Southern California kept three students awake for a period of fifty-four and a half hours and subjected them to various tests. Among other findings is the report that the longer the boys stayed awake the more irritable they became. They had to be watched "to keep them from flying at each other."

This is not a novel discovery about lack of sleep and irritation going together. But the reminder cannot help making people thoughtful at this moment in the international situation. Perhaps the trouble with the world to-day is that too many recently awakened nations are being kept awake too long by their leaders and masters. They are all the time being mobilized, and paraded, and enumerated, and exhorted, and in other ways kept out of bed. As a result they are in a perpetual state of irritation.

It is even worse with the leaders and awakeners themselves. Judging by the numbers of speeches and army reviews they must be dead on their feet from lack of sleep. That must be why they are always flying at innocent bystanders.—New York Times.

#### To Assist Gardeners

#### Advice On Raising Vegetables And Flowers Adjacent To Smelter

Special advice as to raising flowers and vegetables to withstand the fumes of the Hudson Bay Mining and Smelter Co. smelter, was given members of the Flin Flon Horticultural Society by John Walker, of the department of agriculture extension service. The exceptional conditions prevailing at Flin Flon have induced the department to give the society all possible help. He also suggested that the society sponsor a series of short courses in horticulture.

It was decided to stage exhibitions, and entry will be made as open as possible, even for Saskatchewan enthusiasts.

#### Staff Resignations

Three staff resignations were announced by Dr. R. C. Wallace, president of the University of Alberta, in making his annual report at convocation in Edmonton. Associate Professor Joseph Fisher of the department of English goes to Victoria College, Toronto; Dr. A. Leahy, of the department of soils, will join the Dominion service, while Dr. Emerson Smith leaves to take up practice at Ottawa.

Sharply declining death rates for 39 counties of Quebec in which county health units have been set up, conclusively demonstrate the effectiveness of the county unit system in making public health measures produce actual results even in rural areas, according to Dr. Alphonse Lessard of Quebec, chairman of the committee on county health units of the Health League of Canada, in a report sent to Toronto for submission at the League's annual meeting.

Dr. Lessard is director of the Provincial Bureau of Health of Quebec and is an outstanding pioneer in the development of county health units. Dr. Gordon Bates, general director of the Health League of Canada, said in releasing the report for advance publication.

The committee's report urges the Health League to recommend strongly to the Dominion government that a national program be drafted to provide for uniform and progressive organization of county health units throughout all of Canada.

"The system of part-time medical health officers in small communities and rural districts has conclusively proven its inability to provide proper protection to public health," Dr. Bates explained. "Thinly populated municipalities—small villages and townships—cannot afford to pay full-time M.O.H.'s, and could not keep them busy anyhow. After exhaustive study, the Health League of Canada is satisfied that county health units, such as are proving so successful in Quebec, offer the solution to this problem.

"These 'units' are really federations of small municipalities—usually single counties but not always—set up for the purpose of maintaining, with government assistance, an adequate public health bureau in charge of a competent full-time health officer with authority to enforce the regulations without fear or favor.

"While we believe that a broad and aggressive national health policy should be the concern of Ottawa, we know that it is only through close local supervision that health regulations can be put and kept in force. Under federal guidance, the whole country should be divided into units—according to population and area—with each unit maintaining its own effective bureau to give thorough public health protection to the people."

Since 1926, when county health units in Quebec began to be established, the general death rate in the 39 counties having health units had dropped 28.5 per cent. by 1934, while in the remaining counties it had dropped only 23.4 per cent., Dr. Lessard's report shows.

The decrease, expressed in deaths per thousand of population, was from 14.4 to 10.1 in the 39 counties with units, and in the remainder from 14.1 to 10.8.

Infant mortality showed a similar decline in the same period. In the 39 counties the rate dropped 34.8 per cent., and in the remainder it fell only 30.3 per cent.

Even more striking were the results in respect to diphtheria mortality, the report shows. The number of deaths from this disease in the 39 counties dropped from 80.0 per cent., and in the remainder 60.1 per cent.

As no health units had actually got into effective operation by the end of 1926, that year is correctly taken as the latest possible sample of conditions prior to establishment of units, the report points out, adding that statistics for 1935 are not yet complete, but that further improvement is indicated by partial returns. Concrete results shown are the fruit of only seven years of operation, it is noted.

#### Used More Sugar

Canada's consumption of sugar last year amounted to 981,109,960 pounds, according to a return tabled by Trade Minister Euler in the House of Commons. This was the highest figure since 1931 when sugar consumption totalled 1,003,906,912 pounds.

New Methods For  
Control of Wild Oats  
and Dandelions

Development of most modern  
methods for eradication and control  
of wild oats is outlined in a pamphlet  
which has just been issued by the  
Northwest Grain Dealers' Association.  
The information has been  
compiled by Dr. G. P. McRostie,  
Professor of Agronomy, University  
of Manitoba, and Mr. W. H. Silver-  
sides, B.S.A., Assistant on weed  
research. The study indicates that  
wild oats are one of the most prevalent  
weeds in western Canada.

A further preliminary pamphlet,  
which will be of great interest to  
townspeople, has also been issued,  
dealing with dandelion eradication.  
The report states that copper nitrate  
is a practical chemical spray, which  
will kill the dandelion when it is applied  
at the proper time and rate.  
Spudding out the plants, gasoline,  
fuel oil and solvent have been found  
to be ineffective in the control of  
this weed. Common salt or copper  
sulphate may be used with reasonable  
success. Further research is  
being conducted into the control of  
dandelions in arriving at the most  
effective time for application of the  
copper nitrate. Copies of this dan-  
delion pamphlet may be obtained by  
writing to the Northwest Grain  
Dealers' Association, Winnipeg.

Following is a summary of the  
conclusions arrived at in connection  
with the control and eradication  
of wild oats:

Wild oats are a widespread and  
very serious weed, causing large annual  
losses to farmers of western  
Canada; the chief means of spread  
is by seed, hence the chief means  
of control lies in the prevention of  
seed formation. The seeding of  
wild oats with the seed of cultivated  
crops can be greatly lessened by a  
more thorough cleaning of the seed  
with suitable mills including a careful  
adjustment of the threshing machine.  
Where feed containing wild  
oat seeds is fed to animals it should  
either be ground or the manure from  
the animals allowed to rot for a sufficient  
length of time to destroy the  
germination of the seeds. Control  
by cultivation is most effective when  
done after the wild oat plant has  
reached the 4-leaf stage of development.  
The control of wild oats by  
the growing of green feed crops is a  
cheap and effective method where  
the crop is cut in sufficient time to  
prevent seeding. The use of a rotation  
containing a hay and pasture  
crop greatly reduces the number of  
wild oats on any infested farm.

Copies of the wild oat pamphlet  
may be obtained from any line elevator  
agent.

The line elevator companies have  
performed very valuable service for  
the farmers of western Canada in the  
weed research work conducted during  
the past few years. Much valuable  
information dealing with the  
control and eradication of weeds has  
been gained, which has been made  
available to all farmers.

"There is but one failure—  
QUITTING! Many a man has  
become a failure because he gave up  
TOO SOON!"

FOOTBALL.

Didsbury Lose Close Game 2-1  
at Bowden.

Didsbury Football Team drove to  
Bowden Wednesday evening last and were narrowly beaten 2-1 in a closely fought game. Considering that most of our local team are newcomers to the game the result is by no means disappointing, especially as Bowden are reckoned one of the strongest clubs in Central Alberta, having won the Red Deer Cup and other honors. Prospects are for the forming of a league, including Madden, Didsbury and Bowden, with the possibility of one or two more teams entering. The lineup vs. Bowden was: R. Holub; Gasser and McLaurie; R. Walder, Parnell and D. Lamont; Horton, Churchill, R. Brightman, A. N. Other, Prew and D. Walder. A return game is being arranged for the near future.

RUGBY NOTES

The June meeting of Rugby W.I. was held at the home of Mrs. H. Farrant. Twelve members answered the roll-call. Arrangements were made for a W.I. picnic to the O.S.A. on July 16, weather permitting. Two members of this branch are going to the Farm Women's Week at the O.S.A. A wedding gift was presented to a new bride in our W.I., Mrs. Graham. A humorous reading was given by the secretary, and a very pleasant afternoon came to a close with the singing of the National Anthem. There will be no regular meeting in July. The August meeting will be held at the home of the president, Mrs. D. Evans.

Louis Alexandre Taschereau, for 35 years an outstanding figure in Quebec's colorful political life, resigned last Thursday as Liberal premier and was succeeded immediately by Hon J. Adelard Godbout, minister of agriculture. Mr Godbout accepted the invitation of Lieutenant Governor Patenaude to form a new cabinet and intimated he would announce the new personnel, probably Saturday. Then the government will appeal for a new mandate from the people, Saturday, August 15, less than ten months after the Taschereau regime had been returned with a majority of only six seats. It was the closest fight the Liberal party had received in the 38 years it has held power in Quebec.

**Field Day at Burns' Plant.**

The Mt. View Livestock Shipping Association are inviting their patrons and friends to a Field Day and Demonstration at the Burns Packing Plant, Calgary, Thursday, June 25.

Those who attend will be given an opportunity of inspecting every department of the plant and will be able to familiarize themselves with the new system of "grading on the rail." It will be an interesting day for all who are interested in livestock.

The Burns Co. will entertain the visitors to dinner at the plant.

**Poole Chosen as Manitoba Organizer**

Eric Poole, Social Credit M.P. for Red Deer, will undertake to organize Manitoba in the interests of his party. The announcement, made by Mr. Poole himself on his arrival in Alberta last week, was coupled with considerable optimism regarding prospects. He predicted that Social Credit should secure 32 of the 55 seats in the Manitoba legislature.

**Melvin Notes.**

Mesdames George and Charles Youngs gave a shower on the latter's lawn Saturday afternoon in honor of Miss Bessie Evans, a July bride. The color scheme used for the decorations was gold and mauve. The afternoon was passed with contests. The many lovely gifts were carried to the lawn in a decorated parasol. After opening her gifts Bessie thanked all who had made the afternoon so pleasant for her. Percy Hosgood, the groom, also thanked all friends. Several brief speeches were made by various friends, and Mrs. Eddie Krebs favored the crowd of about thirty with a few selections on her accordion. The friends then vended their various wares home after wishing the young couple every success.

Mr. and Mrs. James Adams and Janet, of Springside, spent Thursday afternoon with Mr. and Mrs. Charles Youngs.

Westcott Ladies Aid meeting to have been held at Mrs. Johnston's on Wednesday has been postponed until the meeting day next month.

Mr. and Mrs. Ted Cuffling and the former's brothers Harry and Thomas, of Turner Valley, visited Mr. and Mrs. August Krebs on Saturday.

Mr. Thomas Youngs, of Sacramento, is visiting with his brother Charles Youngs. Thirty years ago Mr. Youngs came west with his brother Charles and it is now thirty years since the brothers met.

Mr. and Mrs. August Krebs, Mr. and Mrs. Roy and Mr. Chas. Ross were in Calgary on Monday. The doctor removed part of the cast from Mr. Krebs' leg. He is doing as well as can be expected. We all hope August will soon be able to walk around again.

Mr. and Mrs. Ed. Parker were guests of Mr. and Mrs. C. Youngs on Wednesday prior to leaving for Gananoque, Ont., to spend the summer with Mrs. Parker's parents. Word has been received from them enroute and they were enjoying the trip very much.

Mr. and Mrs. George Youngs celebrated their 13th anniversary on Tuesday by entertaining Mr. Thom as Youngs of Sacramento, Cal. Mr. and Mrs. Charles Youngs and Ross, Miss Harbison and Miss Edith Good, to a good turkey dinner. Congratulations to Mr. and Mrs. George Youngs.

**WEEKLY JOKE**

"Will the color of these stockings run?"

"Oh no."

"Then it is fast?"

"Certainly."

"Well, how can anything be fast that won't run?"

Black Cardboard—Just the thing for sign painting! 15c Each at the Pioneer Office.

**Burnside Notes.**

Don't forget the dance in Lone Pine Hall this Friday evening. Borbridge's Orchestra from Crossfield will supply the music.

Lone Pine W.I. will meet at the home of Mrs. Turncliffe on Saturday afternoon, June 20.

Dick Metz was a visitor in Calgary on Tuesday.

Mr. George Metz spent the weekend with Sundre friends.

Miss Verna Milne was a Monday afternoon visitor with Miss Ruth Thoman.

Albert Spraggs spent Monday afternoon with Mr. and Mrs. Chris Ahrendson.

Mr. and Mrs. Albert Arlendson were visitors Sunday with Mr. and Mrs. Sid Gilson.

Miss Dorothy Cipperley of Calgary spent Sunday at her home here.

Mr. and Mrs. Charlie Welch of Calgary were Sunday guests of Mr. and Mrs. Fred Thompson.

Born in Calgary on Wednesday, June 10 to Mr. and Mrs. Harold Metz a daughter.

Fred Doll who is working west of town spent the weekend in the district.

Otto Bittner, Bob Spraggs and Dick Jenkins called on Noah Eckel Tuesday evening.

Mrs. Otto Bittner returned from the hospital on Wednesday with her baby daughter.

Misses Sadie and Gertie McLean and Mrs. Eckel took in the W.I. demonstration last Friday afternoon at the Community Hall.

Mr. and Mrs. Henry Ettinger and Mr. and Mrs. Dawson of Olds spent Sunday afternoon in the district.

Mr. and Mrs. Bill Thomson of Allingham spent the weekend with Mr. and Mrs. McPherson of Siebertville.

Miss McIntyre of the Olds School of Agriculture gave a very excellent lecture and demonstration in the Hall on Thursday under auspices of the W.I.

**SOCIAL CREDIT NOTES.**

Didsbury S.C. Group No. 1 held their regular meeting at the Schweizer home on Monday evening. After correspondence was read Mr. Foster's forthcoming meeting at the Opera House was discussed. Reports were given of the Central Council meeting and the pie social at Westcott, followed by a discussion on Mr. Foster's speech at that place. Mr. N. McDonald gave an explanation on several important topics and the issue of Prosperity Bonds was explained.

After business the group was enjoyably entertained by the Edwards Boys & Albert McLaurie. The serving of lunch brought to a close a very pleasant evening. The group will next convene at the Fred Hughes home on June 29th, at 8 p.m. All are heartily welcome.

Didsbury Pioneer S.C. Group held their regular meeting Monday at the Otto Klein home. "Prosperity Bonds—Their Use and Purpose," was the study subject. It was clearly explained that the bonds are not a substitute for social credit, but a means of using the province's credit to carry on its public works, to provide employment for the unemployed who were able to work, and relief for the incapacitated. The group's next meeting will be at Mrs. Cumming's residence east of the track on June 29 at 8 p.m. On Monday evening next a joint meeting of all the Didsbury groups will take place at the Atlas Lumber Yd. at 8 o'clock.

## WORLD HAPPENINGS BRIEFLY TOLD

Death in Quebec of Senator Emile Fortin lowered the Conservative majority in the upper house to 27.

Montreal recently celebrated its 294th birthday with the laying of wreaths at the foot of Maisonneuve's monument on Place d'Armes square.

German editors henceforth must prove their "Aryan" ancestors and that of their wives back to the year 1800, according to new press regulations.

Officers and members of the crew of the German cruiser Emden, while in port at Montreal, paid tribute to Canada's dead soldiers and sailors in the Mount Royal and Cote des Neiges cemeteries.

An inspection of Emperor Haile Selassie's villa at Vevey, Switzerland by Woldde Mariam, Ethiopia's delegate to Geneva, strengthened reports the fallen emperor would soon make Vevey his retreat.

Among those receiving degrees at the closing exercises of Mount Allison University, Truro, N.S., were: Bachelor of Arts, Miss Helen Winifred Baines, Battleford, Sask.; and Bachelor of Science, Frederick White Matthews, Leney, Sask.

The Edmonton Bulletin in a news story said that Hon. Philippe Roy, formerly of Edmonton and now Canadian commissioner to France, may be the next Lieutenant-Governor of Alberta. The paper quoted "well-authenticated sources."

Representatives of all the public and high school teachers in Canada will meet in Saskatoon on Aug. 3, 4, 5, 6 and 7 for the annual conference of the Canadian Teachers' Federation. This announcement was made by J. H. Sturdy, secretary of the Saskatchewan Teachers' group.

### The Red Wolf Of The Forest

#### Effort Is Being Made This Year To Lessen Loss From Forest Fires

The most determined efforts to keep Canada as clear as possible of forest fires in 1936 have been instituted in all parts of the Dominion. Adequate supplies of fire pumps, canoes, railway speeders, have equipped the fire ranger forces, and all is being made ready for the two unknown events: what the weather will be like and what the public will do. The latter element represents the 91 per cent cause of all forest fires. Men with lighted matches and tobacco, settlers clearing their land, campers and their cooking fires—such innocent-looking human actions annually create a deadly harvest of ruined forests, dried up waterways and homeless families.

Nearly five hundred rangers on the "line of fire" across Canada are appealing to the public to join hands with them as protectors of the forests and streams during the present year. In many districts this friendly union of the rangers and those who travel in the woods for work or pleasure has succeeded in virtually outlawing the fire fiend and has kept the woods green and growing, without a single blemish, for many years past.

Subsidized by Australia, an expedition will investigate marine life of the Great Barrier Reef, which extends 1,200 miles along the coast of Queensland.

### Catapulting Lifeboat

#### The Inventor Demonstrates The New Automatic Safety Appliance

The successful 30-foot "flight" of a new automatic safety lifeboat so impressed its inventor, Menotti Nanni, lately, that he predicted the next test leap would be from the George Washington bridge. A little later, he allowed that "the top deck of the biggest steamship" would provide sufficient height.

Nanni predicted that the catapulting lifeboat would make ships' davits obsolete. He said it eliminated the danger of escaping from a ship in case of fire, explosion, "or any other reason why anybody should want to leave a ship in a hurry."

A successful demonstration took place at New York recently. Nanni's boat was an ordinary snubnosed broad-beamed lifeboat. It was supported from the ground by two long rods about three inches in diameter, which fitted into two round chambers in the hull.

One end of the rods was imbedded in a metal turret. The boat was slid onto the other end of the rods so that the rods filled the chambers from stern to bow. A tank containing compressed carbon dioxide, which supplied the motive power, was built into the bottom of the boat. Near the bow was a lever for releasing the gas.

The gas when released immediately filled the chambers, forcing the boat off the rods and catapulting it into the water.

### Applications For Pensions

#### Says Weakness In Administration Has Been Corrected

Mr. Justice Fawcett G. Taylor, acting chairman of the Canadian pension commission, told the House of Commons committee on ex-service men's problems, that on May 1, this year, there were 2,600 applications for pension still to be heard by the travelling quorums. A year ago the number was 4,500.

Weaknesses in pension administration had been corrected in the past two years, and he had not seen the force of keeping any diary with "problem cases," said the speaker.

Four extra commissions had been employed a year ago, and it was likely they would be required for another year. He himself dealt only with "problem cases," said Mr. Justice Taylor.

He did not favor the policy of travelling quorums giving immediate decisions.

Some questions were directed to him in connection with assessment of pension. This was made by the district medical examiner and forwarded to the medical adviser in Ottawa. Where these two differed, the matter went to a board of two commissioners for decision. The travelling quorums had no authority to decide rates of assessment, said Mr. Justice Taylor.

### A Great Accomplishment

#### Armless American "Boy Wonder" Wins Tap-Dancing Contest

Lupe Barate, armless "boy wonder" of McAllen, Tex., won first prize in a tap-dancing contest in San Antonio, adding another feather to his list of accomplishments.

Deprived of his arms when struck by a train at McAllen 18 years ago, Lupe has learned to do nearly everything for himself except to button his shirts and comb his hair.

He has rescued four persons from drowning and is considered an excellent swimmer and wrestler.

### Oldest And Best Razor

Harry A. Dickson of Miles City, Mont., claims to have the most ancient and best razor in America. He has its pedigree and says it is 146 years old, that it was made in Sheffield, England, in 1790, was brought to this continent by Luther Bybee in 1792, and was handed down by him to his grandson and by the latter to his great grandson, Luther Bybee III.

### A Perfect Miniature

A perfect miniature violin, weighing less than two ounces, has been completed by Max Lang of Raymore, Sask., who makes a hobby of carving the tiny instruments. The model, complete with case, weighs 145 grains by itself, and in the case one and three-quarter ounces. 2152

## WAKE UP YOUR LIVER BILE—

### And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of bile into your system if this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas blasts up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks pink.

A mere bowel movement doesn't always get at the cause. You need something that works at the liver well. It takes three rods, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25¢.

### Kidnap Investigation

#### Says Secret Service Still Working On Lindbergh Case

The New York Sun says that "an organization of investigators and private detectives so secret its members use numerical designations, is actively continuing the investigation of the Lindbergh kidnapping case with the knowledge, if not the active support of Governor Hoffman of New Jersey."

"The chief of the operatives," The Sun said, "known as 'K-4' in reports and telephone conversations, according to a former associate, is Harold C. Keyes," a former agent of the United States secret service.

"It was K-4 who led a party of investigators and a deep sea diver to the shores of Centre pond, near Becket, Mass., on April 1." The Sun said, two days before Bruno Richard Hauptmann was executed for the slaying of the Lindbergh baby.

The object of the search, The Sun said, was "a little black bag" which a resident said was carried by Dr. John F. Condon, the "Jawsie" of the Lindbergh case, when he stayed at a cottage at the pond for some time in May, 1932.

The eight muscles of the human jaw exercise a force of nearly a quarter ton.

### Moose River Mine

#### Work Commenced In Draining Water From 141-Foot Level

Pipe lines laid down in the old "root-hog" shaft of the caved-in Moose River mine are now draining the water from the 141-foot level from which Dr. D. E. Robertson and Alfred Scadding were rescued by Nova Scotia miners.

With Deputy Minister of Mines Norman McKenzie, Felix Henderson, mine foreman, descended through the Reynolds shaft of escape. Henderson said he hoped to operate the mine again soon. The Reynolds shaft entrance had been boarded up to prevent persons from entering the hazardous tunnel dug by draegermen.

At the 141-foot level where Dr. Robertson, Magill and Scadding sat on a little platform awaiting rescue, they found six feet of water.

"The rat hole is the same as when it was dug. It hasn't fallen in much," Henderson said.

### Unique Cure For Fatigue

#### Marconi Uses Short-Wave Wireless Waves To Revive Energy

Senator Marconi has revealed his cure for tiredness—the application of short-wave wireless rays.

In an interview at Rome he said: "Short waves applied to the human body do a lot of good. Safe and effective instruments for applying them have been invented and I apply them to myself when I am tired by my work."

"The rays of the short waves remove every feeling of fatigue from me and revivify my energies."

"I find that the application of Marconitherapy does me a lot of good."

Teacher: "Your son is very backward in geography."

Father: "That does not matter. We have no money for travelling."

"I am surprised at you. You know KEEN'S is the best."

"Well, I thought when I was putting up my pickles I could save some money by buying cheap mustard. But never again! Cheap mustard has not the flavour, the strength nor the keeping quality. I've learnt my lesson. It pays to buy the best—KEEN'S D.S.F. MUSTARD."

Made from seed grown in the Fens of England. Shells or hulls are removed and only the inner part of the seed is used. Superfine grinding ensures the full mustard flavour.

In original tins for as little as 10¢

### YOUR GARDEN

A brown or green stained window-box overflowing with gaily blooming flowers is within the range of almost every person. Here, lack of ground space does not matter. This sort of gardening is highly intensive with many more plants to the square foot than would be grown under ordinary conditions. This means that very rich soil should be used and in addition a fairly frequent application of chemical fertilizer during the season. The box must be of fair depth, at least seven inches of soil being available. Being exposed on all sides to drying winds, a thorough soaking once a day is advised. The window-box should be as long as the window and should be supported and arranged so that the top of it is almost flush with the window-sill. There must be holes in the bottom to provide drainage, and also a layer of gravel, cinders, broken crockery or similar material for the same purpose. If one can secure a supply of well-rotted manure put this in next, and finish with a top layer of rich soil. The box, which should be at least seven inches deep and from eight to ten inches wide at the top, should be filled to within half an inch of the top. Along the front trailing Nasturtiums, German Ivy, Lobelia, Alyssum and similar plants are put in, with Petunias, Ageratum, Begonias, Ferns, Geraniums and any other plants especially recommended for this purpose farther back. Shelter from the sun for a day or two should be provided until the plants get established. The same treatment and planting materials will be used with hanging pots.

Tender vegetables are those which have been grown quickly. Especially with such things as radish, carrots and beets, is slow growth disastrous as the roots become woody and filled with objectionable fibres. But this rule also applies to those things used for salads. On this account experts advise pushing growth with frequent cultivation, which in addition to checking weeds also conserves moisture. Cultivation alone will often keep the vegetables going through a dry spell but, of course, a few pails of water on an hour or two with the hose at this time will lend further aid. Where the supply of water is not as convenient as it might be, it is a good plan, in laying out the garden, to plant these things most in need of extra moisture, such as radish, lettuce and celery, closest to the pump. Fertilizer is another way of hurrying growth and, therefore, assuring vegetables of the highest quality.

I'VE TEAMED UP WITH QUAKER AGAIN, TO MAKE THOUSANDS OF BOYS AND GIRLS HAPPY WITH THE SWELL BASEBALL GIFTS SHOWN HERE, YOU CAN GET THEM FREE WITH BOX TOPS FROM QUAKER CORN FLAKES. SEND ME THE COUPON BELOW, QUICK!

*Babe Ruth*

To win thousands of new friends for QUAKER CORN FLAKES!

- Because only Quaker Corn Flakes give you these extra features—they are better value.
- Money-back guarantee of better flavor—printed on every package.
- Freshness and crispness assured by wax-wrapping and triple-sealing.
- Coupon in every package—exchangeable for valuable merchandise.
- Enrichment with health-giving Sunshine Vitamin D.

and  
MOTHERS,  
don't forget  
our  
CONTRACT

... your money back  
if Quaker Corn Flakes  
are not the best, most  
delicious corn flakes  
you ever tasted.

QUAKER  
CORN FLAKES

Boy! Are Quaker Corn Flakes good!

Believe me, you'll want them for breakfast, for lunch, for supper and every time you can get them. Try some. They taste great! They're full of health-giving

energy that helps to give you strength and stamina you need in baseball and other sports. Take a tip from me and eat Quaker Corn Flakes regularly . . . you'll like them.

Gold Plated Baseball Ring or Girl's Bracelet  
To delight the hearts of baseball fans, this beautiful ring or bracelet for 6 Quaker Corn Flakes box tops or 2 Quaker Corn Flakes box tops and 10c.

Professional League Baseball—Regulation size and weight. Horse-hide cover. Double-sew, rubber centre. For 14 Quaker Corn Flakes box tops or 4 Quaker Corn Flakes box tops and 25c.

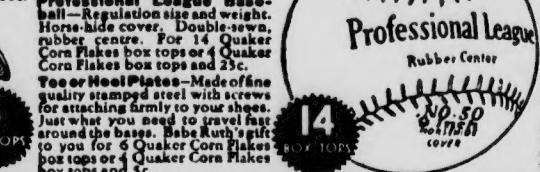

Tee or Heel Plates—Made of fine quality stamped leather with crew just what you need to travel fast around the bases. Babe Ruth's gift.

for you for 6 Quaker Corn Flakes box tops or 4 Quaker Corn Flakes box tops and 5c.

Umpire's Watch Fob Score Indicator  
Who wouldn't be proud to own one of these . . . Babe Ruth's picture on one side

and a complete score indicator on the other. All for 8 Quaker Corn Flakes box tops or 4 Quaker Corn Flakes box tops and 5c.

Baseball Cap  
Grey wool felt with black and green visor. Sweat band. Send for 12 Quaker Corn Flakes box tops or 6 Quaker Corn Flakes box tops and 10c.

Girl's Beret  
All wool. One-piece beret with chic French ties. In white, Open blue, red. Send 12 Quaker Corn Flakes box tops or 6 Quaker Corn Flakes box tops and 10c.

## FLEMING'S FOLLY

—BY—  
LAWRENCE A. KEATING

CHAPTER XIV.—Continued

"Anybody been talking to the men so's to get 'em dissatisfied?"

Townsend's glance was sharp. "A gent named Ferguson, the guy yuh just fired. Been brewin' trouble ever since he's worked here. Say, I followed him just now and I—Wal," he added with pride, "my nickname's Buster. Wait'll yuh see Ferguson." The foreman chuckled and whacked his thigh. "Yuh'll know I earned my handle that time!"

CHAPTER XV.

Link tossed reins over his mustang's ears and went to the front door of the Triple H ranch house. There was no answer to his knock, and with the easy familiarity of the west he opened the door and looked within. No one was there. He then walked around the side of the clapboard structure to the rear, thinking to learn from Ah Wee, the Chink cook, the whereabouts of his mistress.

Of a sudden he came upon her, and his pulse slowed, then beat faster than before. Rising from a kitchen chair which she had brought outdoors to sit in brilliant sunshine, was Helen Hamilton, her lustrous hair tumbled over her shoulders to form an alluring background for her finely chiselled features. She had in her hands a book which she had been reading, and now, at sight of him, showed surprise.

"Oh—hello, Link."

If her welcome lacked its usual warmth he did not notice as he took in the loveliness of her, the rose

petal texture of her complexion, the large eyes and the glinting halo of wavy hair. He moved nearer to take her small hands while his eyes roved again over her head and shoulders. "Say, this is pretty hard on a young fellow. Maybe you know that already, eh?"

She looked away as if ill at ease. "It's nice of you to say that."

Fleming had utterly forgotten his errand; he could think of nothing but the vision of beauty before him. His sun-darkened face betrayed a slight flush as he leaned downward with hope high in his face. But her small hands pushed against his chest as she sought to free herself. Quickly abashed, he released her, and they stood silent a moment, avoiding each other's eyes.

"Gosh, I'm sorry. Reckon I oughtn't to've done that."

Still she said nothing. "You look kind of pale. You aren't ill, Helen?"

"N-no. Please tell me what you came for."

He flashed a puzzled look. "It isn't very good news, I'm afraid. You see, somebody caused a landslide at the dam. It didn't kill anyone, but Orliss and Dooley got badly hurt and I had 'em sent to my ranch house. I guess it didn't do as much damage as was expected, but it did enough," he declared grimly, and launched into an account of the affair, deciding not to mention Buzz and Kilgo's attempt on his life.

Helen looked grave. "I'm awfully sorry. No doubt it was well to get rid of Ferguson if he caused all the trouble. Do you think he started the landslide?"

"Somebody put Ferguson up to makin' trouble, and whoever it was probably did it himself."

"I see." She looked away. "Was there anything else you wanted to tell me?"

Link felt strangely disturbed at her coolness. He looked about for a place to seat himself. Helen rested again in the kitchen chair and he settled his tall muscular frame on the low step of the cook house doorway at her feet. He hated telling her, but it had to be done. "Buzz came over to see me this mornin'."

She glanced at him in surprise. "I didn't know that."

"You didn't? That's queer. Buzz said he'd talked it over with you, and you sent him to ask me—because he's paroled to me, I thought."

Helen leaned forward. "What do you mean?"

He saw that she did not follow, that she had no knowledge of Buzz's errand.

"Your brother came to my spread this morning to say he thought he could make a man of himself if he

had responsibility. He wanted me to put in a word so's you'd sign over power of attorney for your ranch—put him in charge like he was before. Buzz went on that it was a man's job, and that if he didn't have a chance, how could he prove himself reformed?"

Helen gave a little toss of her head that sent the glinting mass of hair back over her shoulders. "He said that? Of course, there is a great deal in it. Now that I think," she recalled, and rested her chin in the palm of one hand, "he did mention something of the kind, but we didn't really discuss it. Of course when he receives a full pardon from the Governor I'll turn over his half of the spread, and perhaps give him charge of my part too."

"But that's different than the way things are now," Fleming said dryly. He proceeded to recount his interview with Buzz, step by step as it had happened. When he reached the point where both men had become heated, he began to feel uncomfortable for the troubled surprise that showed on her oval face. But he forced himself to go on, even to mention of the struggle.

When he ended Helen made no comment for a full minute. Then a look of pain waved over her countenance and the Triple H mistress leaned back in her chair to regard him thoughtfully.

"Why did you knock him down, Link?"

He flashed an astonished look. "Why, he grabbed my gun! He would've shot me, maybe killed me, sure as I'm sittin' here!"

She frowned down at her hands. "I'm afraid I'll have to hear Buzz's side. Strange," she added. "He has been here since that occurred but he didn't mention it."

"You mean you think I'm lying?"

"No, I wouldn't say that. But—oh, I can't blame Buzz for being angry. You didn't handle the situation very well," she reproached. "Instead of winning his confidence when he came to give it, you refused to be sympathetic. It made him feel more than ever like a failure, a convict. Suppose you were in his place: how would you feel with everyone refusing to trust you, unwilling to help you make yourself a man?"

He simply stared at her from under brows knotted in astonishment. Finally he looked away and kicked absentmindedly at a stick. How could she feel thus on the facts stated? How could she blame him?

"Roper Kilgo put Buzz up to that—I found it out," he declared, looking straight into her widest eyes. "He's convinced Buzz that I'm after you spread, that I've got something crooked up my sleeve to freeze you

out of the dam. I told Buzz about our partnership agreement, and that's when he went for my gun."

"But, pshaw, Helen, you don't put any stock in that kind of talk, do you? Kilgo was against irrigation and thought he headed it off at the meeting when Torney said it was no good. Now he begins to see the scheme will work. That water will make our spreads the most valuable in the county instead of his, and that rubs Roper the wrong way. Don't take much brain power to see he's behind the trouble we're having with the men. He was waiting for Buzz when we got through our talk, and I saw the pair of 'em—"

"Don't, Link—don't go on like that. You have no proof. It doesn't help to—to talk wildly and accuse Roper of everything that goes wrong. Especially when I know better."

He started, sucking breath sharply. "What do you mean?"

Her chin quivered slightly and her face seemed to go a shade paler. She avoided his eyes, to stare down at her tapering fingers. At last Helen assumed a determined expression and lifted her gaze to meet his.

"Link, I've about decided to accept a loan Roper offered me. With that and the money from our steers tomorrow I want to buy you out of the dam. What price will you make me?"

An exclamation sprang from his lips as he scrambled quickly to his feet. Helen also rose. "What! You want—"

He stared in blank, incredulous amazement at her winsome face now wearing an expression the like of which he had never seen before. "Wh-what did you say?" he repeated in an awed, far-away tone. "Take money from him? You want to quit the partnership? To buy me out?"

She nodded, her breast heaving turbulently. "Yes. What price will you make, please?"

His throat was so dry that he could not answer at once. Still he stared, his lower jaw sagging. Link passed a hand over his forehead and frowned. "Why, I won't sell out. Not to anybody!"

Helen Hamilton looked away. "Then will you buy me out? Will you pay me a fair price and dissolve the partnership?"

"Gosh!" he whispered. "I—don't want to! Anyhow, I couldn't raise the money. No, I couldn't do it."

There ensued a brief silence. "How much do I owe for my part so far?"

He shifted weight, scarcely crediting his ears. "Nine hundred or so. I dunno."

He had left out the five hundred he had personally borrowed from Bunker Otto Pieper, and the five hundred he owed Marty Bush. Also her share of the expense of building the dam which they did not know exactly as yet—McLendon's salary, wages owed, materials not paid for.

Helen realized this. "It must be a great deal more than that. One thousand for half of our first note, four hundred of the eight hundred dollars I lost when Buster Townsend held me up—"

"But he didn't! Say!" As Link advanced a step she retreated, her hands raised as if to fend him off. "Buzz told you that? But, Helen, Buster didn't pull that job! Why, I put it up to him an' he proved an alibi. Buster wouldn't do that—he's the best man I've got."

(To Be Continued)

## Newspaper Of Tomorrow

### Will Supplement Textbook Material Opinion Of Modern Educator

Whatever you may expect of the newspaper of the future, it is interesting to visualize it through the eyes of the modern educator. Take, for example, Dr. Garry C. Myers, head of the department of parent education at Cleveland College, Western Reserve University.

Dr. Myers sees tomorrow's newspaper as a real "educational institution," being used as an instrument in the classroom to supplement textbook material. The increase of syndicated columns covering a wide range of human discussion is a definite trend toward a more "educational" newspaper, he believes.

There is undoubtedly vast opportunity for newspapers to become more and more an educational force and thereby to render increased public service.—Kitchener Record.

## Need Building-Up?

WHEN you feel out-of-sorts, when you've no appetite, or stomach-ache gives trouble, with gas or dyspepsia, try Dr. Pierce's Golden Medical Discovery. If you want to put on healthy flesh—

this is the tonic for you. Read what William Blote of 276 Grosvenor Ave., N., Hamilton, Ont., said: "At one time I had no appetite, lost weight and vitality, and I seemed to have a cold on top of another. I took Dr. Pierce's Golden Medical Discovery and the first bottle helped me. It was not long before I had fully recovered and seemed to be stronger and better than ever."

Buy now. New size, tabs 50¢, liquid \$1.00.

He saw that she did not follow, that she had no knowledge of Buzz's errand.

"Your brother came to my spread this morning to say he thought he could make a man of himself if he

In the District Court of the District  
of Southern Alberta.  
Judicial District of Calgary.

In the matter of the Estate of Carl  
Vernon Fullerton, late of Elkton, in the  
Province of Alberta, Farmer, deceased.

Notice is hereby given that all persons having claims on the estate of the above-named Carl Vernon Fullerton, who died on the 9th day of April, 1936, are required to file with the undersigned by the 25th day of July, 1936, a full statement duly verified, of their claims and any securities held by them, and that after that date the administratrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed or brought to her knowledge.

Dated this 8th day of June 1936.

W. A. AUSTIN,  
Solicitor for the Administratrix,  
Didsbury, Alberta.

### **LOCAL & GENERAL**

Mr. and Mrs. August Fisher are visiting the home farm this week.

Mr. and Mrs. Herman Hawks and their guest Miss Janet Ames are vacationing in the Banff National Park.

Mr. and Mrs. Dick Gertzen of Los Angeles motored here to visit Mrs. Gertzen's brother, Cliff Robertson.

Miss Rosie Mack arrived from Three Hills on Sunday and is visiting her mother for a week.

**DANCE**—At the Rosebud School Monday, June 22. Good Time • Good Eats • Good Music. Admission 25c. Borbridge's Orchestra.

Rev. J. S. Domm, of the Evangelical Conference, will preach at the M B C. Church Sunday afternoon at 2:45.

Pianoforte Recital by Miss Thompson's Pupils Friday June 26 at 8:15 p.m. in the United Church. Admission: Adults 25c, Children 15c.

Messrs. A. Brusso and Alex McNaughton left Tuesday for Edmonton to attend the convention of municipal secretaries, being held at Edmonton this week.

The crop conditions in this district are excellent and the abundant moisture which has fallen the last two weeks make the prospects for an abundant crop.

Mr. and Mrs. Russel Berscht drove to Calgary on Wednesday afternoon. While there Mr. Berscht will purchase a new stock of Health Spot and Heel Hugger Shoes.

Mr. and Mrs. Fred Osmond and Mr. and Mrs. Trackman, of Spokane, were visitors here this week. Fred, who formerly worked on the Pioneer, is now working on a Spokane newspaper.

Mr. E. P. Foster, M.L.A. will be the principal speaker at a public meeting at the Didsbury Opera House on Tuesday, June 23 at 8:00 p.m. Music is being arranged for. Everybody will be welcome.

Mr. and Mrs. Harder expect to leave on Monday for Montana where they will attend the convention of the Mennonite Church. They expect to be away a little more than a week.

Don't forget the Concert being put on by the rural school pupils at the Community Hall tomorrow (Friday) evening. An excellent program. Dance to follow. Admission: Concert, adults 25c and children of school age free. Dance, gents, 25c Ladies please bring lunch.

On Tuesday June 9 Mr. and Mrs. N. B. Snyder of the Waterloo District, gave a reception at their home in honor of their youngest son Walter and his bride, who have recently been married and have motored from Ontario to visit relatives and friends. A delicious buffet luncheon was served to about thirty guests.

### **Golf Notes.**

The lady golfers have organized and the playoffs to establish the handicaps for future competition is being played this week. Following is the schedule:

Mrs. Friesen vs. Marie Chambers
Mrs. Fisher .. Mrs. Foote
Mrs. Watkin .. Edith Chambers
Mrs. Fleury .. Evelyn Liesemer
Jean Russell .. Florence Russell
Ella McMow .. Mrs. Friesen

\* \* \* \*

The golf course was very popular this weekend and a large number of members took advantage of the good weather. The greens are in excellent condition and the fairway has been mown, bringing the course into good playing shape.

\* \* \* \*

The men's competition is well underway and is expected to be completed this week.

\* \* \* \*

Following are the scores turned in for the first competition of the season:

	Gross	H'ep	Net
Reiber	104	30	74
Wordie	100	22	78
Julien	100	22	78
Fleury	107	25	82
Friesen	127	30	97
McKenzie-Grieve	81	22	62

### **LOCAL & GENERAL**

Mrs. Albert Meston of Lacombe is visiting her father, brother and sister here this week.

Albert and Herbert Fennell of Barrie Ont. are visiting their cousins Tom and Jim Morris.

Mr. and Mrs. W. Durrer and daughter spent the weekend at their cottage at Sylvan Lake.

A. G. Studer and Ed. Jans spent last week at Sylvan Lake erecting a cottage.

Mrs. Al. McInnes left on Friday for the East. She will visit relatives at Ottawa and other points.

Try one of our \$1.00 Work Shirts for real wearing value.—T. E. Scott.

Tom Johnson expects to leave on Sunday for the East, where he will visit relatives. He will drive back a new Chev. on the return trip.

Come to the Tea, Supper & Sale of Homecooking, Saturday, June 27 in the Leusler Block. Under the auspices of St. Cyprian's W.A.

Knox United Sunday School Picnic—Tuesday, June 23 at the farm of Bruce Parker east of town. Meet 1:30 p.m. at the church.

Miss Marie Chambers will attend a cosmetic school which is being conducted by the Rexall Drug Co. at Calgary on Thursday and Friday of this week.

Mr. Barron Gage will hold an Auction Sale of his Household Furniture on Saturday, June 27th in Didsbury. If you've anything to sell bring it to this sale.—Archie Boyce, Auctioneer.

The ladies of the Golf Club are holding a bridge party on Thursday evening June 18 at the home of Miss Elva McMow. Everybody welcome. Good prizes will be awarded. Admission: 25c per person.

Mr. and Mrs. Jack Davies, of Calgary, spent a couple of days this week with Mr. and Mrs. George Parsons Sr. and other Didsbury friends. Jack used to play football with the local boys a few seasons ago and is now a member of the Callies' team in the southern city.

We have Sisman's Scampers from \$1.75 up. Just the thing for summer footwear.—T. E. Scott.

Mr. and Mrs. Pete Miquelon are to become Didsbury residents. Pete has been employed at the Didsbury depot for the past year or two, making daily trips to and from his work. This will be ended when his family settles in our neighboring town.—Olds Gazette

Messrs. W. A. Austin and J. E. Goader attended the convention of the Union of Alberta Municipalities held at Lethbridge on Thursday and Friday of last week. It was the largest convention of the Union for years, 120 delegates from the various towns and villages attending.

Mons Chapter I.O.D.E. will celebrate King Edward's birthday by holding a Strawberry Shortcake Tea on Mrs. A. R. Kendrick's lawn, Friday, June 19, from 3 to 7 p.m. If the weather is not favorable the tea will be held indoors. Tea cup reading.

The paper given by Mrs. J. V. Berscht on "Systematic Giving" at the W.C.T.U. meeting last Thursday was very helpful and a good discussion followed. Mrs. Newton gave a full report of the Didsbury Convention in a pleasing manner, and Mrs. Geeson's report on the poster contest was very interesting, as was also her information gathered at the Alberta Association Temperance Forces in Edmonton last week.

Mr. John Hewins, Veterinary Surgeon, is in the district. Inquire at Chambers' Drug Store.

Monday evening a number of friends paid a surprise visit on Mr. and Mrs. B. T. Gage prior to their departure to the U.S.A. Cards and music was the program for the evening, at the close of which a bountiful lunch was served by the ladies. During the evening Mr. and Mrs. Gage were the recipients of a beautiful travelling case, a token of the good wishes of their many friends. The presentation was made by Mesdames Carleton and Gibson.

Buy your Travelling Goods from T. E. Scott.—We have a large stock to choose from.
